

## **Vocational Education**

### **Real Live-Training: Where you can still touch trainers – but you shouldn't!**

At LUTZ & GRUB AG we perform Live-Trainings on a very high level of quality where our trainers are available personally and on a face-to-face level. Due to this intensive and supportive method of knowledge transfer we accomplish that all our participants pass their relevant examinations and certifications on this behalf.

### **Our Field of Expertise: IT and Project Management**

Benefit from our long standing inside knowledge with respect to information technologies as well as with respect to project management. If you're coming from this line or specification as well or if you're aiming at a career thereof, then you've come to the right place!

### **There's nothing like acknowledged certification**

By visiting our further education and training courses you obtain certificates that are officially acknowledged in the industry and business environment and thus you'll have crucial competitive advantages.

Our certifications: MCSA, MCSE, MCITP, MCTS, Certified Project Management Associate

### **Individual Career Management**

Supported by our specially qualified and trained coaches we individually accompany your professional career management.

### **Theory meets Experience**

We offer Live-Trainings performed by exquisitely trained colleagues who also serve as consultants for our corporate customers. Therefore we can always guarantee you outmost know-how on this behalf.

### **Career Opportunities**

Nearly all our degree holders successfully followed their career opportunities after their vocational training with us. And the best even stay with us: in our business areas IT-Consulting and IT-Support.
